Additional information This certification can be withdrawn if the manufacturer no longer satisfies the requirements of the Certification Scheme. The Applicant is obliged to inform UL International Demko A/S of any changes in their ISO 9001 registration or other aspects upon which this certification has been given.

Results of 18 month surveillance of the quality system are a part of this certificate.

Expire date 2023-09-03

The Applicant specified in this Certificate has been successfully assessed according to the requirements of UL International Demko A/S' Ex Equipment Repair Facility Scheme.

Based on the assessment it was found that the facility/ies listed in this Certificate comply/ies with the Scheme requirements when performing the services specified within the Scope of Service and Type of Protection.

This certification applies for the repair of above mentioned type of products which were originally fully certified for the ATEX directive and certified by an organization that is ATEX Notified Body or IECEx Certification Body.

Certification Body

This certificate and audit findings were obtained during auditing which is based on a sampling process of the available information. UL did not select the sample(s) or determine whether the sample(s) provided were representative of other processes. The Applicant is solely and fully responsible for conformity of all products to all applicable Standards, specifications, requirements or Directives. The audit results may not be used, in whole or in part, in any other document without UL's prior written approval.
